---

### SUMMARY

I am a Computer Science student at Ramanujan College, with strong skills in Python, C++, HTML, and CSS. My experience spans technical leadership roles and creative direction, where I've successfully designed impactful web applications and multimedia assets.

---

### PROJECTS

#### TEDx Ramanujan College Website [↗](#)

Devised and deployed a responsive website with dynamic content management, handling registrations using HTML, CSS, JavaScript, PHP, and MySQL.

#### MoodLens (Emotion Detection Software) [↗](#)

Conceptualized comprehensive SRS documentation and developed the working website for a mood tracking software, offering an intuitive interface and personalized emotional insights for users.

#### Rock Paper Scissors Game [↗](#)

Created an interactive game with responsive design and optimized game logic, increasing user engagement by 20% across devices.

#### Aesthetic Clock Extension and Website [↗](#)

Enhanced a real-time clock Chrome extension and website with lightweight performance and a minimalist design.

#### Stopwatch Chrome Extension [↗](#)

Implemented a functional stopwatch Chrome extension for timing activities, focused on ease of use and lightweight performance.

---

### TECHNICAL SKILLS

**Programming Languages:** HTML | CSS | JavaScript | Python | PHP | C++

**Data Handling & Analysis:** NumPy | Pandas | Matplotlib | Excel

**Databases:** MySQL

**Cloud Platforms:** AWS

**Tools:** Git | GitHub | GitBash | VS Code | Chrome DevTools

**Design Tools:** Figma | Adobe Illustrator | Canva

**Software:** Microsoft Office

**Networking:** Computer Networks

**Relevant Coursework:** Data Structures and Algorithms | Object Oriented Programming | PPL (Principles of Programming Language)

**Other:** UI/UX Design | Chrome Extensions | Web Animations

---

### SOFT SKILLS

- |                          |                        |
|--------------------------|------------------------|
| • Critical Thinking      | • Project Management   |
| • Communication          | • Storytelling         |
| • Leadership             | • Presentation         |
| • Problem Identification | • Attention to details |
| • Problem Solving        | • Time Management      |

EDUCATION

<b>Bachelor of Science - (Hons.) Computer Science</b>	<b>Expected in 08/2026</b>
Ramanujan College, University of Delhi	
• Scored an aggregate of 8.36 CGPA till now.	
<b>Senior Secondary</b>	<b>07/2022</b>
Divya Public School Thanabhawan, Shamli	
• School Topper with 93%	
• Completed coursework in Physics, Chemistry, Mathematics and Computer Science	
<b>High School</b>	<b>07/2020</b>
Divya Public School Thanabhawan, Shamli	
• School Topper with 94.4%	

WORK EXPERIENCE

<b>Technical Head, TEDx Ramanujan College</b>	<b>03/2024 - 08/2024</b>
<b>Project:</b> TEDx Ramanujan College Website	
<b>Role:</b> Full-Stack Developer	
<b>Tech:</b> HTML, CSS, JavaScript, PHP, MySQL	
<b>Description:</b> Architected an engaging event registration platform that facilitated real-time updates for over 300 participants; ensured perfect brand alignment through consistent visual design with TEDx standards during development.	
<b>Key Highlights:</b>	
• Developed a seamless event registration interface.	
• Secured back-end for user data and event management.	
• Optimized for performance and cross-browser compatibility.	
<b>Creative Head, TEDx Ramanujan College</b>	<b>07/2023 - 08/2024</b>
• Created and directed 10+ multimedia projects, including promotional videos, interactive websites, and event graphics, increasing audience engagement by 35%.	
• Supervised the creation of 30+ digital assets, ensuring on-time delivery and 100% alignment with organization guidelines.	
• Guided a team of 8 creative professionals, improving team productivity by 15% through streamlined workflows and collaborative tools.	
• Constructed visual concepts that boosted audience retention by 30% through captivating designs and storytelling strategies.	
<b>Volunteer, TURINGTON'23</b>	<b>04/2023</b>
• Supported staff in managing daily operations, increasing overall task efficiency through effective resource allocation.	
• Edited and distributed 50+ marketing materials (flyers, posters, and digital campaigns) that boosted event attendance by 20%.	
• Coordinated communication among 20+ volunteers and staff members, ensuring 100% task completion ahead of deadlines and seamless event execution.	
<b>Core Graphics Team, YUVA Delhi</b>	<b>10/2024 – Present</b>
<b>Project:</b> Vimarsh'24	
• Designed and curated 20+ high-impact graphic assets for "Vimarsh'24", resulting in a 30% increase in attendee engagement on digital platforms.	
• Collaborated with a multidisciplinary team of 10+ professionals to develop creative themes, delivering promotional materials ahead of schedule.	
• Enhanced brand consistency and visual appeal, contributing to a 15% growth in event visibility across social media channels.	
• Currently supporting YUVA Delhi's creative initiatives, crafting innovative design strategies that align with organizational goals and enhance audience outreach.
